By signing, each participant confirms that they have carefully read and agreed to the visitor guidelines of Estermann Event & Abenteuer GmbH on the reverse side of this page. For participants under the age of 18, the supervising adult or accompanying adult confirms by signing that the visitor guidelines have been read and discussed with the minors before they participate in the event. By signing, I accept the Visitor Guidelines of the climbing park and confirm that I have read them carefully. For children under my supervision, I confirm that they have been informed about the Visitor Guidelines and that I have discussed them with them before they participate in the climbing activities.

Visitor guidelines for Münchner Wald Kletterwald Vaterstetten and Kletterwald Prien am Chiemsee

Operator: Estermann Event & Abenteuer GmbH

The following visitor guidelines apply to all activities offered by the rope course (the climbing park), including climbing, team training, archery, raft building, and similar activities.

1. These activities are sports activities involving risks. Please act responsibly. Incorrect use of the safety and protective equipment may result in falls, injuries, or even fatal accidents. Participants must act carefully and attentively towards themselves, other participants, and the equipment provided. Participation and use are at your own risk. Participation is only permitted if you do not exceed the maximum weight of 120 kg and do not suffer from any psychological condition, illness, or unhealed injury that could endanger your own health and safety or that of other participants. Persons under the influence of alcohol, drugs, medication, or other intoxicating substances are strictly prohibited from participating. Any psychological condition (mental health condition), illness, or injury, such as open wounds, must be reported to the staff before the activity begins. This includes, for example, musculoskeletal disorders and cardiovascular conditions. Pregnant women should consult their doctor before participating in any activity. Climbing is excluded and is not permitted during pregnancy. For the Raft Building activity, non-swimmers (minimum swimming ability equivalent to the German Seepferdchen certificate or similar) must inform the responsible instructor before the activity begins. General water safety rules must also be observed, including not participating with a full or empty stomach, leaving the water immediately in the event of a thunderstorm, and showing consideration for other swimmers and participants.
2. During the activity, participants may not carry unsecured objects that could endanger themselves or others. Jewellery, mobile phones, backpacks, bags, and other valuables must be removed. We accept no liability for these items. Please wear suitable clothing that can easily be cleaned and sturdy footwear for land-based activities. Stay on the designated paths within the facilities of Kletterwald Prien am Chiemsee and Münchner Wald Kletterwald Vaterstetten.
3. Before participating, every participant must attend the complete safety briefing (theoretical and, where necessary, practical) and understand it. Afterwards, participants are responsible for using the safety system correctly. The safety system must always be used as demonstrated during the safety briefing. Participation without a safety briefing is strictly prohibited. Entering the access to the course, for example via the stairs or other parts of the course, without being secured is strictly prohibited. Only one person may be on an obstacle at a time, and a maximum of three persons may stay on each platform simultaneously. All courses have age restrictions, minimum reach requirements where applicable, and different difficulty levels. All posted information, such as the age restrictions displayed on the course signs, must always be observed.
4. The operator (represented by the Parkmanager or the Manager on duty) reserves the right to exclude any person who does not comply with these visitor guidelines or with the instructions of the staff from the activity or from the rope course.
5. Smoking is strictly prohibited during activities within the facilities of Kletterwald Prien am Chiemsee and Münchner Wald Kletterwald Vaterstetten.
6. Safety equipment is personal and may not be transferred to another participant. It must not be removed during the activity. If the equipment (e.g. climbing harness or life jacket) is removed (e.g. for using the toilet or smoking), it must be checked by an instructor before participation can continue.
7. By signing, you confirm that you have carefully read and understood these visitor guidelines and that you also accept our General Terms and Conditions. Estermann Event & Abenteuer GmbH accepts no liability for damages resulting from failure to comply with these visitor guidelines or with the organiser's or instructor's instructions and safety requirements. In general, Estermann Event & Abenteuer GmbH accepts no liability for personal injuries caused by other participants or third parties. Valuables of any kind are not accepted for safekeeping, and no liability is accepted for them. Estermann Event & Abenteuer GmbH is only liable for property damage or financial loss caused intentionally or through gross negligence by its legal representatives or employees.
8. The operator (represented by the Park Manager or the Manager on Duty) reserves the right to stop the activity or close individual courses for safety reasons, such as severe weather, strong winds, heavy rain, hail, maintenance work, etc. In such cases, there is no entitlement to a refund. There is also no entitlement to a refund if a participant ends the activity early or discontinues it due to overestimating their own abilities. Likewise, there is no entitlement to a refund of the admission fee or an extension of opening hours if the maximum climbing time of three hours cannot be fully used due to the park's opening hours. The last course entry is 30 minutes before closing time.
9. The maximum climbing time is 3 hours, beginning with the safety briefing. For each additional 30 minutes or part thereof, an additional charge of 5,00 € per participant will be applied.
10. The personal data provided by participants will be used exclusively for customer and booking administration and for internal processing. Personal data will not be passed on or made available to third parties.

As of June 2026
